

LISBOA '2004
12th International Symposium on Applications of Laser Techniques to Fluid Mechanics

GUIDELINES FOR AUTHORS

<http://in3.dem.ist.utl.pt/lx1aser2004/>

All papers accepted for presentation in the Symposium will be incorporated in a CD-Rom which will be distributed to all the participants, together with a book of abstracts.

The present instructions should be used for submission of the papers. A sample paper is available at the Symposium website <http://in3.dem.ist.utl.pt/lx1aser2004/>, as an example of a paper following the present instructions.

Please note that all papers should preferably be submitted electronically. A **full paper** includes a 1 page abstract and should be submitted together with a **Publication Agreement** duly signed.

1. SUBMISSION OF PAPERS

Papers should be sent electronically, via **e-mail**, to llaser@dem.ist.utl.pt, as specified in <http://in3.dem.ist.utl.pt/lx1aser2004/>. Diskettes may be sent by regular air mail **only exceptionally and in case of impossible electronic transmission**, but the papers must follow the instructions below. Printed papers will be only accepted for exceptional situations and must be very clear, because they will be digitized at IST, Lisbon, for inclusion in the CD-Rom.

i) ELECTRONIC SUBMISSION THROUGH E-MAIL – DEADLINE: 31ST MAY 2004

Papers must be sent as AN ATTACHED “WORD” DOCUMENT/FILE for **Windows**.
The e-mail address to be used is as follows:

llaser@dem.ist.utl.pt

Each paper must be presented by one of the authors and we would appreciate if you could use the ON-LINE REGISTRATION FORMS. Then, following normal standard procedure, the final version of the paper should be **ATTACHED** as a separate document. Please do **not** COPY and/or PASTE.

ii) AIR MAIL, ONLY FOR EXCEPTIONAL REASONS

The **original paper**, and 1 diskette (3.5”; PC format; Word for Windows) should be sent to the address below by **31ST MAY 2004**.

LADOAN - 12

c/o Prof. Manuel V. Heitor
Center for Innovation, Technology and Policy Research, IN+
Instituto Superior Técnico
Av. Rovisco Pais
1049-001 Lisboa, Portugal

2. PAPER

The first page of the paper must include the title, the authors and their affiliation, and an abstract with about 300-400 words, with supporting figures if necessary. This first page will be printed in the Book of Abstracts. Please make sure that the abstract is not more than 1 page long. Examples of a paper are found at <http://in3.dem.ist.utl.pt/lx1laser2004/>.

Full papers, including figures and tables, should be limited to **12 pages**. Limit your paper by writing concisely, not by reducing the figures to a size at which their labels will be difficult to read. Remember that the full paper will appear in the CD-Rom.

3. TYPING

To ensure that your paper will be reproduced properly, the text should be **single-spaced, single column** per page and should be **justified**. Standard typefaces are preferred. The **FONT** to be used is **TIMES New Roman 10**, except for the title which should be **TIMES New Roman 12**, in **bold** and **centered**.

4. TABLES AND FIGURES

Briefly and descriptively title each table and caption each figure. Please include them in the text, after their first reference. Place title above the table, place figure caption below the figure.

5. REFERENCES

Literature references should be cited in the text, following the procedure adopted in the Journal of Fluid Mechanics, with author's name followed by year of publication in parenthesis. For example: Smith (1989). Give authors' names, if two, or the first name with "et al." if three or more. Literature references should be grouped at the end of the paper in alphabetical order. In the reference list, cite all the authors' names.

6. PERMISSIONS

You are responsible for making sure that you have the right to publish everything in your paper. If you use material from copyrighted source, you may need to get permission from the copyright holder. You need to seek permission to use a figure or table if it has not been changed in any substantive way from the original or if it does not plot or compile data readily available to anyone. You need to seek permission to quote material if you use it in a way competitive with the original material, that is, if your use of the material will harm the rights of the original publisher and/or author. This criterion holds true regardless of the length of the quote. If quoted material will not be used competitively, you need only cite the original source. Please consult your own legal adviser if you have any questions about what may need permission.

PUBLICATION AGREEMENT

This Agreement is made between the Organizing Committee of the **12th International Symposium on Applications of Laser Techniques to Fluid Mechanics** and _____ (Corresponding Author) on behalf of all the authors of the _____ paper _____ entitled:

A. The Organizing Committee of the **12th International Symposium on Applications of Laser Techniques to Fluid Mechanics** will publish and distribute articles accepted for the Symposium.

B. Author(s) has submitted an Article(s) to the **12th International Symposium on Applications of Laser Techniques to Fluid Mechanics** for publication.

Now, therefore, the parties agree as follows:

1. Author(s) will retain copyright on the article to reproduce, distribute, publish and transmit the article, through whatever medium author determines.

2. Author gives permission to the Organizing Committee of the Symposium to incorporate the full Article(s) into a CD Rom. The abstract of the article will be printed in a book of abstracts and will be available through the Symposium website.

3. The Author warrants to the Symposium that the Article(s) is original material, and is in no way a violation of or an infringement upon, any copyright belonging to any third party; that the materials contained in the Article(s) are accurate; and that the Article(s) contains no defamatory or otherwise illegal materials. The Author(s) shall indemnify and hold the Symposium harmless from any claims where the Contribution infringes upon a third party's copyright or contains inaccurate, libelous or unlawful material.

4. This Agreement constitutes the entire agreement between the Organizing Committee of the **12th International Symposium on Applications of Laser Techniques to Fluid Mechanics** and the Author and supersedes any other understandings or terms. If the foregoing terms are satisfactory, please sign and date this Agreement, make one copy for your files and return the original to the conference secretariat during registration for the symposium (or by mail or fax prior to the symposium - see fax information below).

ACCEPTED AND APPROVED:

Symposium Organizing Committee
